**WORLD  
 EDUCATION  
 SUMMIT  
 DELHI** 2017  
 CONFERENCE • AWARDS • EXPO

CELEBRATING  
**10th**  
 EDITION  
 11-12 AUGUST  
 Hotel Le Méridien, New Delhi

*Kalthoom Al Balooshi, Executive Director of Education Development, KHDA, Dubai*

With Department of Higher and Technical, Government of Rajasthan, being the Principal State Partner, the 10th edition of WES also had esteemed global partners such as Knowledge and Human Development Authority, Dubai (KHDA), United Arab Emirates (UAE) and government partners as the All India Council for Technical Education and National Skill Development Corporation.

The two-day conference was divided into two parallel sections: School Education and Higher Education. The school education witnessed various brainstorming sessions including Leveraging Collaboration, Building Effective School Education Ecosystem; Technology Accessibility in the Classroom: Creating Inclusive Learning Experiences for Students, Trends in Education in India and many more.

*Audience at the summit*

*Panel Discussion*

Similarly, the higher education section observed the sessions on Emerging Trends in Higher Education and Assessments: The Way Forward; Discussion on Knock On Impact of MOOCs on Learning Models & Pathways; Role of Assessment, Accreditation, Evaluation and Quality Standard in Higher Education among other sessions.

This was the first time WES included a special session -- HR Conclave -- to discuss employability related issues, the gaps between industry demands and skills and hiring processes etc. The industry presentations during the summit highlighted the scope of technology and its effects in the education sector, need for skill development in the country and more participation of corporate for betterment of education landscape.

*Participants of HR conclave at the summit*

## 10th World Education Summit (WES) – *A Commemoration of the Spirit of Education*

Revolutionising the universe of education since 2011, the World Education Summit (WES) has invariably ensured that the finest eduleaders and experts share one platform and brain-storm over the finest practices and solutions, paving the way for a better world of education for all.

Also, the WES serves as a top-class platform for coming across and introducing the most innovative methodologies and solutions, with the presence of various industry stakeholders, innovators, and exhibitors linked to the education industry.

# INAUGURAL SESSION

## KIRAN MAHESHWARI

Minister, Higher and Technical Education,  
Sanskrit Education, Science and Technology,  
Government of Rajasthan

"The Chief Minister's Advisory Council is suggesting and guiding us for improvement in quality of higher education and higher educational institutes' development. The council is also guiding our way to inculcate skills and entrepreneurial aptitude among the youths of the state. We have started skill and entrepreneurship related courses in association with the Indira Gandhi National Open University (IGNOU) from this session in the government colleges."

## DR VS RADHAKRISHNAN

Minister of State for Education,  
Sri Lanka

"There are about 4.5 million students studying in Sri Lankan schools. There are about 2,11,000 teachers and about 10,100 schools in Sri Lanka. Out of these schools over 350 are under the Central Government and are also known as "National Schools". These National Schools are running as "Super Schools" as they are provided with all the facilities by the government, equipped with all the latest technologies and follow the best global practices. All the other schools in the country are handled by the provincial councils."

## KALTHOOM AL BALOOSHI

Executive Director of Education Development, KHDA, Dubai, United Arab Emirates (UAE)

"KHDA is supporting the education sector in Dubai and it has its major focus on the private sector. In terms of education reforms, KHDA has pledged to walk on the roads that are not travelled. We support schools, universities, parents, students, educators, investors and government partners to create a high-quality education sector focused on happiness and well-being."

## CHRIS COBB

Pro Vice-Chancellor and Chief Operating Officer, University of London

"We have students who couldn't come to London. Thus, we brought education to the institutions that were near them so that they didn't need to come to London. We partnered with the institutions in their own country. The first country we partnered with was Seychelles. The then examination process, which included dispatching exam papers, conducting exams, and declaration of result, took over six months. In this process, shipping of papers to Seychelles, shipping of answer sheets from Seychelles to London and dispatching results back to Seychelles took six months. But, nowadays it is a matter of weeks. Today, a person sitting in New Delhi or in any corner of the world can undertake the exam of any institute of London."

# INAUGURAL SESSION

## ANIL SWARUP

Secretary, Department of School Education & Literacy, Ministry of Human Resource Development, Government of India

"We have managed to get children to school. But we have not really been able to educate them. The per capita expenditure on education has gone phenomenally up, thanks to the Right to Education (RTE). But various evaluations have revealed that the learning outcomes have not been able to keep pace with the expenditure flowing in."

## ANIL D SAHASRABUDHE

Chairman, All India Council for Technical Education (AICTE)

"Today, Gross Enrollment Ratio (GER) in higher education has crossed 24.5 per cent. Our vision of Reaching 30 per cent by 2020 seems much easier. What is important is to impart quality higher education to the youth. According to various industries, only 35-40 per cent engineering graduates are employable. In order to bridge this gap, we are taking various measures."

# SPECIAL ADDRESS Glimpses of WES

## FAGGAN SINGH KULASTE

The then Minister of State, Ministry Of Health and Family Welfare, Government of India

“Not only in India but also in every country, imparting quality education is very important. Still, in rural areas of the country, a person who can sign is considered literate. But that can't be all. To be ahead of the other countries of the world, we have to improve the quality in all segments of education space with the help of teachers and institutions.”

## ASHUTOSH A T PEDNEKAR

Special Secretary, Department of Higher Education & Commissioner, College Education, Government of Rajasthan

“We have good number of institutions in the State of Rajasthan. We have over 2,000 institutions in the State. In terms of colleges per lakh of the population in Rajasthan, there are 35 colleges, which is higher than the national average. The government colleges in Rajasthan are evenly spread out to provide youth of State cheap and quality education.”

## ANJU SHARMA

Principal Secretary, Higher and Technical Education Department, Government of Gujarat

“Today, there is a strong need in the country for academic institutions to provide special kind of programmes that can make students employable and not just eligible. In our finishing school, we are giving 100 hours of training to students. We train them in communication skills, life skills, positivity, confidence, how to face an interview, how to write CV, etc. So far, we have trained more than 3,000 students”.

## DR A ASHOK

Secretary & Commissioner, Board of Intermediate Education, Government of Telangana

"The implementation of IT has improved our efficiency and delivery of services in learning. Information Technology is beneficial for students as well as for organisations. Earlier, students had to wait in queues to collect their certificates and marksheets. But now these documents are available online."

## PADMA JAISWAL

Secretary (Coop), NIR, Official language, Labour & Employment, and Public Grievance, Government of Goa

"There is a lot of news about layoffs and many employees have launched complaints against their companies in this regard. To avoid such kind of sudden layoff situations, we have instructed the corporates to organise 'Boot Camps'. Moreover, the employees should also train themselves in industry-related skills to have more and more job options."

## JITENDRA KUMAR SONI

Collector and District Magistrate  
Jhalawar, Rajasthan

"Nowadays it is tough to imagine life without Internet. But still there are so many places in our country where there is no Internet connection. In this era of digitisation, it is necessary to provide Internet to every student who is in school as well as to those who are preparing for competitive exams."

## FREDERICK ROY

Commissioner and Secretary  
Urban Affairs Department, Government of Meghalaya

"We are trying to improve the quality of education with a focus on every subject like in Mathematics, learning at the primary level. For primary classes, we undertook a project in collaborative mode under Sarv Shiksha Abhiyan in 2014-16. The main three principles that drove this project forward are: *Empower teachers, Excel in innovation and Drive student outcomes.*"

## ARCHANA THAKUR

Joint Secretary, University Grants Commission (UGC)

"This is about Skill India initiative. We have Deen Dayal Upadhyaya Kaushal Kendra. UGC has funded around 500 institutions, both universities and colleges, for degrees in skills along with community colleges and Deen Dayal Upadhyaya Kaushal Kendra. There are 64 centres of Deen Dayal Upadhyaya Kaushal Kendra and more than 200 centres of community colleges. We have allocated Rs 500 crore for these centres and out of this we have disbursed around Rs 350 crore."

## RS PRAVEEN

Secretary, Telangana State Welfare Residential Educational Society, Government of Telangana

"In Telangana, we are investing heavily into residential education, as often we find most talented students in rural areas of the State. But due to poor economical conditions, they can't afford good education. Moreover, parents also are very aspirational to provide their children good quality education and that too in English medium."

## BK SINGH

Commissioner  
 Navodaya Vidyalaya Samiti

"Navodaya Vidyalayas have revolutionised the rural education. In 2017 alone, 4,000 Navodaya students got admission in IITs 12,000 students got admission in medical colleges. 44 students got selected in civil services. Our students have got admissions in international universities as well. We have started Digital Learning in our classes".

## RAMESH BHATT

Chief Media Adviser to Chief Minister of Uttarakhand

"We need to develop a society where a student doesn't feel inferior because he has studied in a government school. We are dividing the society in two parts and it will be bad for the country. Education should be provided to everyone without any discrimination."

## RAVI RANJAN

Director, Skill Development  
Government of Jharkhand

"Jharkhand Skill Development Mission Society was established as an autonomous body under the Department of Labour which later shifted to Department of Technical and Higher Education, Government of Jharkhand. The kind of skill training programmes going on in the State are the central government schemes and the state government schemes."

## DD PAWAR

Mission Coordinator - Skill Development  
Maharashtra Skill Development Society

"Today, the problem is unemployability instead of unemployment. Candidates lack the skills to become employable. Candidates should be ready to learn new skills, to relocate, to change their attitude, so that getting jobs become easy. Candidates are having only bookish knowledge instead of practical knowledge."

## AMOD K KANTH

Chairman, Domestic Workers Sector Skill Council  
Government of India

"Domestic workers are those who work at home to support residents. 90 per cent of these workers are women. Various job roles defined by us are, let's say housekeeping, it involves the housekeeping from homes to institute and from offices to hospitality sector. It is one of the most important job roles. Cooking and Child Care are among the other important job roles."

## BISWAJIT SAHA

Additional Director (Vocational Education)  
CBSE

"The country is facing a gap between higher education and school education. The conference may act as a platform to minimise this gap as well as an opportunity for appropriate networking between the two segments of education sector. It is high time to deliver the academic content in an innovative way that after 10 year students can face the market challenges."

# HR CONCLAVE

Glimpses of WES

## SUCHITA DUTTA

Executive Director  
Indian Staffing Federation

“Education is very important part of everybody’s life – from earning livelihood to having a status in the society. We also have to take into consideration that education is not only for earning livelihood but earning livelihood is very important part of education. Today, businesses are moving at a very fast pace, and we have to bridge the industry-academia gap.”

## SIMIN ASKARI

Vice President, Corporate HR  
DS Group

“A large number of students are graduating as also a good number of institutes are mushrooming up every year in the country. But, are we actually preparing the students who are employable? Who can work with the organisations in a certain role? Probably not. During the recruitment processes, we find that students have technical skills but they don’t have employability skills.”

# INDUSTRY PRESENTATIONS

## KAUSHIK BELLANI

Managing Director  
Mcgraw Hill Education

"A learner-centric approach of education is crucial. We have to measure that the learners are learning or not. And, that's where our education system has to change itself, and hence adaptive learning is required. Adaptive learning uses data, as it measures each learning moment and sends the data to instructor and the content developer as well."

## VIKRAM GARG

Regional Business Manager  
Seqrite

"Schools, colleges, and universities have a huge amount of data. It is very important to secure that data. Seqrite provides the endpoint security to its every user. Endpoint means the devices like laptops, tablets and smartphones of customers."

## YASHRAJ SINGH

CEO  
Time Of Sports

"We are using synergies of one place in two different places and moving ahead. Ten years down the line, we will be one of the biggest sports consultancy firms in India. We will be dealing with government agencies, institutions, corporate and students."

## Key Speakers from Industry

## Glimpses of WES

### JYOTI AGARWAL

Managing Director  
 Arjun Toys & Furniture

"We are dealing with lots of schools in the public and private sector across India as well as abroad. Arjun toys and furniture is a one-stop solution for all your school and college requirements. We are manufacturers and suppliers of all kinds of school and college furniture. We deal in complete institutional setups and delivering quality products."

### SUMIT GUPTA

Managing Director  
 Indiannica

"If we look at the education scenario that we are following, the focus has been shifted from 'Learning' to 'Earning'. But in the information age, this practice can't be sustained. The students are much more informed today, so the horizon is expanding. At Indiannica, our objective is to enhance the learning of students."

### NISCHAL NARAYANAM

Founder  
 Nischal's smart learning solutions Limited

"ICT has true capabilities of transforming the education system in the right way. In the last decade, technology has created a significant impact on the education system. Teachers and students are very open to accept the new technology-based teaching-learning practices."

## PRITESH PRABHAKAR PATIL

National Head  
 Marg CompuSoft Pvt. Ltd

"We are the largest inventory accounting software company. We have been a part of skill development. The changes made by the present government is leading towards a new economy where knowledge transfer, education, and awareness play a very important role."

## ASHISH SRIVASTAVA

Director  
 Naesys Dimensions Solution Pvt. Ltd

"We believe that technology implementation will lead towards improvement in the Higher Education space in the country. In this context, we can talk about four major things: Education ERP, Connected Campus, Secure Campus, and Virtual Campus."

## MAHESH KURMI

Chairman Shikhar Classes  
 CTO, Shikhar Edusoft

"Thought-provoking skills, learning-with-fun and curiosity development are the key points that should be kept in mind while teaching. There are solutions for these things, but most of them are limited to primary or school education. However, for Higher Education, the solutions are limited."

## MOUSUMEE MISHRA

Assistant General Manager  
 Airpay Payment Services

"We have a thorough SAS product to simplify online fee collection. We are trying to make the admission form collection and fee collection easy for the colleges. Our online platform is integrated with different kinds of payment instruments. Other than this, we also provide offline payment solutions."

## JACQUELINE ANTHONY

Smartclass Educational

"We are a leading digital content provider. Our products have a complete repository of content that caters to every class from pre-nursery to class XII. We also have our English language lab that improves the communication power of students. We recently ventured into computational thinking and innovation lab as well."

## SAMEER KANWAR

Chairman, ConneXRM, Apar Technologies

"Today, ICT is becoming a kind of foundation for every aspect including education. So, from the perspective of knowledge economy that every country wants to become, there are four key pillars – Education, Innovation, Economy and ICT Infrastructure. Education is one of the driving factors for a better future of education. And, the ICT is vital for it."

## GARIMA BABBAR

Head- Strategic Alliances, Education & Skill Development, Adobe Systems

"While the countries are getting older, by 2020 India will have 49 percent of its workforce as youth. So, it's our responsibility to inculcate skills for the development of youth. We have the data with us about employability status of youth. We know where the problem is. So, it's our responsibility to bridge the industry-academia gap."

## GURUPRASAD

Vice-President, Business  
 Mint Book

"Technology integration in education has become an important criteria. Mint Book is a content rendering solution. A lot of content is available worldwide, but if Internet is not available accessing that content is a challenge. Mint Book provides a whole repository of the content and it is stored in a safe, secured and encrypted form."

## ANCHAL LUTHRA

HR Lead  
Academic Games

"We have come up with educational videos and games in English as well as in Hindi. It will help the students in urban as well as in the rural areas of India. This year, we will be launching a mobile application in 14 regional languages. So, it will help the students of remote areas to learn with language being no bar."

## VIRAJ JIT SINGH

Chief Marketing Officer,  
KidZania

"It is our responsibility to impart quality education at the preschool stage. It is important, as education at this stage prepares children for learning at a higher stage. It leads children to become sensitive and intelligent citizens."

## SNIGDHODEV BHATTACHARYA

Senior Strategic Solutions Manager- South Asia  
Tyco Security Products

"Tyco develops products that help schools to avoid accidents within or outside the campus. Our products help parents to keep a complete surveillance of their most-priced possession. If the school bus is following correct route or not, whether its speed is within the limit, etc, are taken care of by us."

## JAIRAJ BHATTACHARYA

Founder CG Slate  
ConveGenius Edu Solutions

"In an eight-year-old child's life, 58 per cent of a day's time is spent at home. Before enrollment into a school, home is the best school for children. So, it is very important to bridge the gap between what is taught at a preschool or a school and what is taught at home."

## GAURAV KANWAL

Head of SMB & Channel Sales, South Asia  
Adobe Systems

“When we look at the future goals and talk about the skill development of children then there are four Cs that we typically talk about: critical thinking, collaboration, communication, and creativity. Communication is important, as if you cannot communicate effectively, you stand nowhere.”

## ANKUR GUPTA

CEO  
CampusMall

“Every country requires uniforms in schools. It’s a matter of challenge nowadays how you do it. So, comfort, durability and value for money are the important factors for a uniform. We, at Campus Mall, try to engage the school, children and parents through our products.”

## Dr RAKESH DUBEY

ConneXRM  
Apar Technologies

“Education is not only about being literate. It is about developing a child’s personality in a way that he or she can acquire knowledge. We all are contributing for the same. We also have to focus on infrastructure along with improving the higher education scenario.”

## MUKUL KANITKAT

Rashtriya Sangathan Mantri  
Bhartiya Shiksha Mandal

"Topic-based teaching is the holistic teaching. It is an integrated approach of teaching. Information is not education. Through tests, only the information of a student can be assessed but his or her practical knowledge cannot be adjudged. Knowledge is experience, but we are limiting the education to information only and it must be changed."

# “THANK YOU”

for making 10<sup>th</sup> World Education Summit, Delhi 2017  
 a Grand Success

Heartiest thanks to you for adding a great sense of value to the 10<sup>th</sup> World Education Summit held recently in New Delhi. At the same time, we take the pleasure to share, once again the World Education Summit is set to move to Dubai! Yes. Overwhelmed by the strong presence and participation of the distinguished people like you, we've decided to organise the 11<sup>th</sup> edition of World Edition Summit in Dubai once again. We hope to meet you there!

Leading  
the emerging  
happy education sector of  
Dubai

*Dr. Abdulla Al Karam, Chairman of the Board of Directors and  
Director General, Knowledge and Human Development Authority  
(KHDA) speaking at World Education Summit 2016, Dubai*

Dubai, the city known for its skyscrapers, with its vibrant private education system, which is one of the most diverse private education systems in the world, is all set to scale new heights.

Keeping in mind the importance of Dubai, as one of the leading education hubs around the globe, Elets Technomedia, Asia & Middle East's premier media & technology research organisation, is proud to announce to host prestigious 11<sup>th</sup> World Education Summit (WES) on 10-11 December, 2017 in Dubai.
