8th School Leadership Summit: Enabling Schools to be Future-Ready

“Continuing with the legacy of School Leadership Summits, its 8th edition was unveiled in Indore recently. It emerged as a platform for highlighting ideas and latest trends that are useful for uplifting the standard of school education and encourage adapting better practices among those who matter.

The educational extravaganza showcased the best and the latest innovative practices in school education before their right stakeholders. The summit proved to be a facilitator of knowledge-exchange among policymakers, edu-leaders, regulators, and industry leaders linked to school education ecosystem.

Speaking on the occasion, Kunwar Vijay Shah, Minister for School Education, Government of Madhya Pradesh, referred teachers as “nation builders” as he went on deliberate upon how important is the role of teachers for holistic development of a country and children.

The summit was earlier inaugurated by Shankar Lalwani, Chairman, Indore Development Authority, Government of Madhya Pradesh and A S Rathore, District Project Coordinator - Right to Education, Indore.

A special edition of digitalLEARNING magazine was also launched by Shankar Lalwani and A S Rathore at the summit. The edition showcased the importance and the best practices for safety and Security in pre-schools along with “Top Preschools of India Ranking 2018”.

The School Leadership Summit (SLS) Indore, held on 22 September, witnessed participation of noted educational stakeholders and edu-leaders in the day-long summit meant to deliberate on finest practices and innovations empowered by technological interventions.

During the summit, edu-leaders shared their thoughts in panel discussions on topics like Interactive Technology Bringing Innovations into Education: Adoption and Exploration, Safety and Security in Schools: Prospects and Measures, STEAM Learning: Outcomes and Practices Unfolded in School Education and ERP and Assessment Tools in School Education: Improving Learning Outcomes through Technology.

Top Schools in Madhya Pradesh and Chhattisgarh along with other prominent ones from different parts of India were also felicitated at the summit. The industry presentations highlighted the scope of technology and its comprehensive effect in the school education sector.

A few glimpses of the summit

Key speakers with Kunwar Vijay Shah, Minister for School Education, Government of Madhya Pradesh during 8th School Leadership Summit Indore

GOVERNMENTSPEAKERS

KUNWAR VIJAY SHAH

MINISTER FOR SCHOOL EDUCATION,
 GOVERNMENT OF MADHYA PRADESH

"A teacher can nurture thousand successful youths but thousand successful youths cannot nurture a teacher. To recognise the teachers' contribution in the nation's development, we call them as 'Nation Builder'. Teachers' contribution in development of a nation is beyond comparison.

Education nurturing cultural values among students is beneficial otherwise it is worthless. It is necessary for students to know our Indian heritage and cultural values. Through various initiatives under the State education ministry, we are trying to inculcate patriotism among the students. It is necessary for every school to nurture cultured, and learned future leaders who can drive the country on growth path.

In an important initiative, we have made it necessary for every school to conduct parent-teachers meeting in every two or three months. It will help parents to know about their wards' progress as well as the shortcomings and ways to improve them.

In another initiative, we have tried to help students with poor grades. We ensured that teachers must help such students in improving their marks and also not to behave indifferent with them. Only a teacher can help poor students to improve and become successful in life ahead."

SHANKAR LALWANI

Chairman, Indore Development Authority,
Government of Madhya Pradesh

"It is important to provide a good infrastructure to preschools, schools, and colleges so that students get their education in an amiable environment. Indore Development Authority through its various schemes is supporting all the educational institutes to realize the dream of "Education for All!"

A S RATHORE

District Project Coordinator - Right to Education,
Indore

"The State Government is taking various initiatives for students from class 1 to class 8. We are encouraging students of these for participating in various activities other than studies. In another scheme, the teachers are made responsible to figure out the innovative ideas for enhancing interest of children towards education."

INDUSTRY PRESENTATION

Presentations in the expo at 8th School Leadership Summit Indore

DHRUV SANGHAVI

Manager - Business Development, Furtados School of Music

"In future, almost all the jobs will be gone as robots with Artificial Intelligence (AI) will replace the human beings. In order to sustain use of right side of the brain (the creative side) must be enhanced. It is necessary to nurture students with leadership skills, communication skills, decision-making skills, empathy and conscience as AI cannot replace these skills."

VINEET JOSEPH THOMAS

Senior Manager, Entab Infotech Pvt Ltd

“Every school is using some level of automation in the form of bulk SMS service, fee module, payroll module, communicating with parents etc. Enterprise Resource Planning (ERP) software is the comprehensive solutions that can manage all activities of a school through a common online platform. The one application will help the school to manage every department in a school.”

SHWETA DUA

Business Head, Brainy Bear Preschool and Activity Club, Bhopal

“At Brainy Bear there is a wide range of after school activities, which provide a platform to explore and learn while having fun. Through a carefully drafted curriculum, we enable children to develop a lifelong love for learning. To ensure and enhance the all-round development of your child, Brainy Bear fuses the latest research on early childhood pedagogy along with its expertise on child psychology.”

SHILPA ZOTA

Corporate Sales Manager, Atom technologies ltd

“Atom offers a bouquet of payment processing services enabling business houses and individuals to transact in a user-friendly manner with convenience, speed and utmost security over mobile, IVR as well as Internet. Atom technologies limited is India’s leading payment service provider with 1,50,000 plus clients (all channels) and has processed over 150 million transactions.”

SUNIL SUNDARAM

Director, Torrins Antham Pvt Ltd

"Torrins is a powerful pre-school education and entertainment brand with its content licensed and sold in over twenty-five countries including USA, China, Russia etc. and several millions copies of books published till date. The edutainment content featuring Purple Turtle & Friends comes in a variety of print and digital formats."

KUNAL SAREEN

National Training Director, Zoommer Sport

"Zoommer is about driving physical literacy in India. It's a programme helping children sitting at home with tablets, smart phones and televisions to become active. Our physical literacy programme has multiple dimensions. Assessment in physical activities helps parents to know about improvement in their wards' physical strength."

DR (CAPTAIN) DINISHA HARDWAJ SINGH

Principal, Global Indian International School, Indore

"Being a retired army personnel, we try our best to inculcate 'Either Win or Die' feeling among students at the school. Along with this, we maintain high level of discipline in our school. We also ensure safety and security of candidates in every possible way. We also encourage students to give their best in every task."
